Medical Wizard

Overview:

This guide provides instruction on configuring both Medical-Objects Capricorn and Medical Wizard software to import electronic results.

If you require any assistance with the installation or configuration, or if you have any questions, please contact the Medical-Objects Helpdesk on (07) 5456 6000.

If you have not Installed the Medical-Objects Download client, Please see the guide for Installing Capricorn on Windows.

Configuring Capricorn Software

Accessing the Capricorn Configuration Window

Note:

In some cases, the Capricorn may be configured as a service. See this guide for instructions on how to

- 1. To launch the HL7 Tray application, Go to Start Menu, All Programs, Medical-Objects and select the Medical-Objects Capricorn. Alternatively, You can go to C:\MO\Capricorn and run
- 2. The following icon will appear in the tray. Double click on it to bring up the log window.

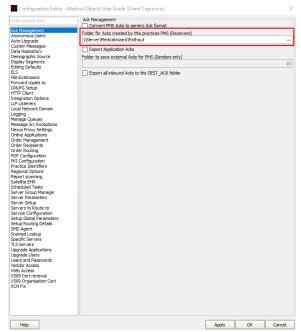

3. When the log window is displayed, Click on the Configuration icon highlighted below, or select Utility and select Configuration.

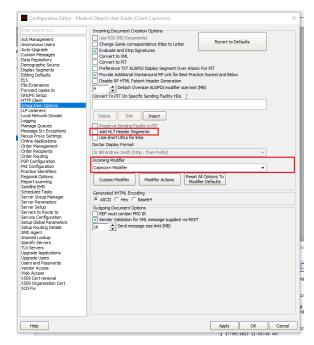

Capricorn Configuration Settings

1 Overview: 2 Configuring Capricorn Software

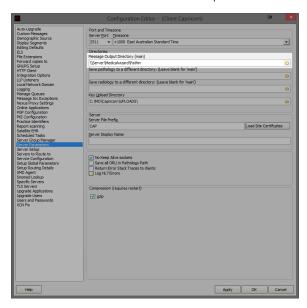

2.1 Accessing the Capricorn Configuration Window 2.2 Capricorn Configuration Settings 1. Click on Ack Management.

- Set the Ack Management Path to the Medical Wizard Pathout folder. Use a UNC file path if possible. For example: \\Server\Medicalwizard\Pathout
- 3. Click on Integration Options.
 - 3.1 Check that the Incoming Modifier is set to Capricorn Modifier.
 - 3.2 Add HL7 Header Segments will need to be unticked.

4. Select **Server Parameters** from the left hand panel.

Set the Message output directory to Medical Wizards Pathin folder. Use a UNC file path if possible. For example: \C

5. Results should begin importing into Medical Wizard.
