## Installation of Word Plug-in

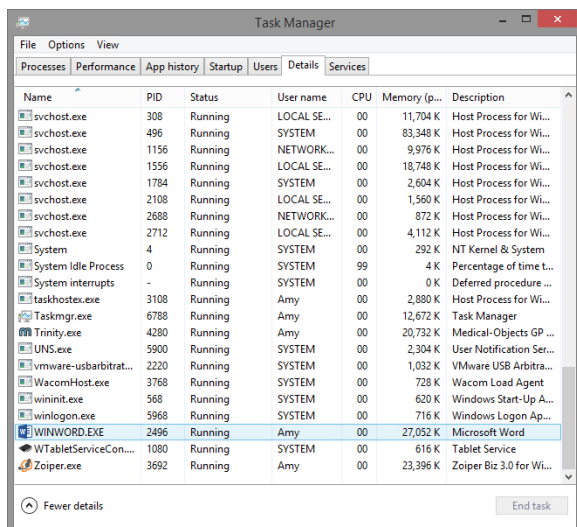

Before installing the Word Plug-in, You will need:

- An installation of the Capricorn software already installed on your network, Or an installation of the Medical-Objects Explorer.  
*Word Plug-in uses the Capricorn software to transmit the electronic messages*
- You have a Medical-Objects Word Plug-in Token. If you do not have a token, Please contact the Medical-Objects Helpdesk on (07) 5456 6000.
- Make sure all instances of **WINWORD.exe** are not running on your computer as shown in the image below.

Warning:

As the Word Plug-in requires the Word program, the installation will not work if Microsoft word is running.

1. Download the latest Word Plug-in from the Medical-Objects Website.  
<http://download.medical-objects.com.au>
2. Click on the download button in the Word Plug-in section.

### Word Plug-in (WPClient)

WPClient is a plug-in to Microsoft Word to allow you to send your straight from Word (using the button generated on the toolbar) to other doctors through Medical-Objects.
