Creating a Patient Summary

- 1. In Best Practice, choose **File/Open patient**.

- 2. Choose the patient you wish to create the summary for and click **Open**.

- 3. When in the patient record, choose **File**, and **Print Health Summary**.

4. Tick the items you wish to include in the summary and then click the **View** button.

Patient Health Summary

Include:

☐ Family history	☐ Social history
☒ Current medications	☒ Allergies/Adverse reactions
☒ Past history	
☒ All	☐ Active
☐ Inactive	
☒ Immunisations	
☐ Requests	☐ Past prescriptions
☒ Investigations	Select
☐ Visit notes	Select
☒ Correspondence in	Select
☒ Correspondence out	Select
☒ Observations	☐ EPC items
☐ Pap smears	☐ Obstetric history
☐ On screen comment	
☐ Select all	☐ Show preview

5. This creates and opens the summary in the letter writer window.
