- 2 [Manage Users](#)
  - 2.1 [Creating a new user](#)
  - 2.2 [Delete a user](#)
  - 2.3 [Updating a user](#)
- 3 [Setting Up Each User Account for Email Notifications](#)

## Manage Users

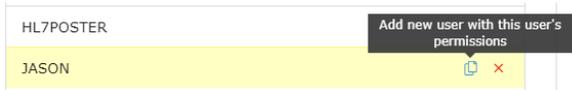

The Manage Users feature allows you to add, remove and update your Explorer Online users. You can access the Manage Users feature via the **Tools** navigation menu.

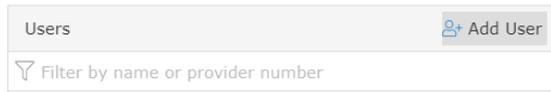

## Creating a new user

Tip!

You can clone an existing user which will copy their permissions by hovering over the user in the user list and clicking the clone icon.

To create a new user simply hit the **Add User** button in the header of the users list panel.

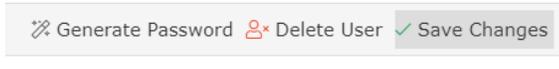

After clicking the **Add User** button you can then fill out the add user form to the right.

	Details	Tip
<b>Username</b>	The username they will use to log in with.	Avoid long usernames as well as spaces or special characters.
<b>Password</b>	The password they will use to log in with.	You can generate a random password by clicking the <b>Generate Password</b> button. 
<b>Require Password Change</b>	<b>Required</b> This will force the user to set their own password when they first login.	
<b>Providers</b>	Click the <b>Add</b> button to add a provider.	If the provider you wish to add is not registered with Medical-Objects you can add an unlisted provider by clicking the drop-down arrow on the <b>Add</b> button and selecting <b>Add Unlisted</b> .

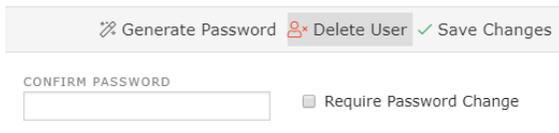

<b>Permissions</b>	The permissions the user will have.	<p>Suggested defaults</p> <ul style="list-style-type: none"> <li>• View own results</li> <li>• View own restricted results</li> <li>• Mark results as reviewed</li> </ul> <p>Suggested permissions for granting user access to the <b>Requested Charts</b> folder</p> <ul style="list-style-type: none"> <li>• View All Unrestricted Results</li> <li>• View Own Results</li> </ul>
--------------------	-------------------------------------	---

Once finished simply click the **Save** button.

## Delete a user

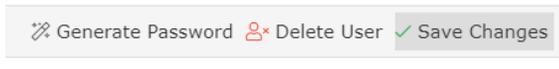

To delete an existing user, simply select the user in the user list and then on the right-hand side click on the **Delete User** button.

## Updating a user

To update an existing user, select the user from the users list. Once selected the users' details will be displayed in the user details section to the right.

Once you've made your changes simply click the **Save Changes** button.

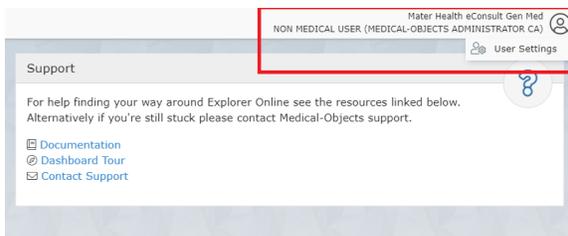

## Setting Up Each User Account for Email Notifications

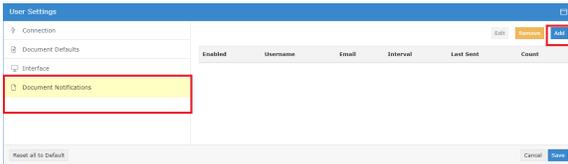

Note:

If the user has logged in using a client certificate, they will have access to configure every user's notification setting, otherwise they will only be able to configure their own.

1. Select the user account in the top right corner.
2. Click **User Settings**.

3. Click **Document Notifications** and select **Add**.

4. Enter the email address they want to receive the notifications to.

The image shows a dialog box titled 'Add Document Notification User'. It contains three input fields: 'USERNAME' (a dropdown menu), 'EMAIL' (a text input field), and 'INTERVAL' (a dropdown menu with 'once a day' selected). To the right of the 'INTERVAL' field is a toggle switch labeled 'Enabled' with a green checkmark. At the bottom of the dialog are 'Cancel' and 'Confirm' buttons.

5. Set up the interval of how often they want to receive an email notification - it's recommended once an hour or every 4 hours, so they aren't getting spammed with emails - and select **Confirm**.
6. Then **Save** the **Document Notifications** configuration.
