VIP.Net Sending

Overview

This section includes instructions for setting up the Medical-Objects Capricorn for sending through VIP. net. This step is designed to be included in the Capricorn configuration for VIP.net Here.

If you require any assistance with the installation or configuration, or if you have any questions, please contact the Medical-Objects Helpdesk on (07) 5456 6000.

If you have not Installed the Medical-Objects Download client, Please see the guide for Installing Capricorn on Windows.

Configuring Capricorn Software

Accessing the Capricorn Configuration Window

In some cases, the Capricorn may be configured as a service. See this guide for instructions on how to launch the Capricorn if it is set up as a service.

- To launch the HL7 Tray application, Go to Start Menu, All Programs, Medical-Objects and select the Medical-Objects Capricorn. Alternatively, You can go to C:\MO\Capricorn and run the Capricorn.exe.
- 2. The following icon will appear in the tray. Double click on it to bring up the log window.

3. When the log window is displayed, Click on the **Configuration** icon highlighted below, or select **Utility** and select **Configuration**.

2. Click Add.

Set the Queue name to $\ensuremath{\texttt{VIP}}$ SENDING

If on a workstation, Set the Base Directory to C: \VIPData\results\MO\OUT\

Or if on a server, set the Base Dirctory to \\Server\VIPData\results\MO\OUT\

Note: Please note that the Base Directory location can change, depending on where your version of VI P.net is installed to.

Click the **OK** button to save.

3. Click the **setup** button.

Set the file mask to *.* (All Files) File mask

5. Add the following decorators using the previous steps.

Move Acks to Application ACK Folder.

Modify Message with HL7 Script

```
//{\tt VIP.net} currently doesn't populate MO IDs in the correct fields.
program VIPMOIDs;
var
 i: Integer;
 recipient: string;
begin
 for i := 0 to HL7Data.SegmentCount - 1 do
 begin
    if SameText(HL7Data.SegmentName[i], 'MSH') then
     begin
         recipient := HL7Data.GetFieldValue(i, 5, 0, 0, 0);
         break;
     end;
  end;
  if ValidateMedicalObjectsID(recipient, false) then
 begin
      for i := 0 to HL7Data.SegmentCount - 1 do
     begin
          if SameText(HL7Data.SegmentName[i], 'PRD') and
          (SameText(HL7Data.GetFieldValue(i, 1, 1, 0, 0), 'IR') or
SameText(HL7Data.GetFieldValue(i, 1, 2, 0, 0), 'IR')) then
          begin
              HL7Data.SetFieldValue(recipient, i, 7, 0, 0, 0);
          end;
          if SameText(HL7Data.SegmentName[i], 'PV1') then
          begin
              HL7Data.SetFieldValue(recipient, i, 9, 0, 0, 0);
          end;
      end;
 end;
end.
```

Override Sender HD fields to This Value Route with Capricorn

Note Please note that for the **Override Sender HD Fields to This Value** decorator, You will need to contact Medical-Objects to obtain the Practice Identifier details.6. Click the **Apply** and **OK** buttons to save your settings.

VIP Address entries

Provider Numbers

If the recipient has a provider number enter it into both fields indicated by the arrows.

		Presider Centert Details				Device	Communications	Communications		
iumame Inst Names	Provider Internal	Building Box	-			Dummy, Provider Anaesthetist 200 Bluestone A	O Letter O Erreil	⊛ RSD _ ○ Fax
