

Totalcare

Overview

This guide provides instruction on configuring both Medical-Objects Capricorn and Total Care software to import electronic results.

If you require any assistance with the installation or configuration, or if you have any questions, please contact the Medical-Objects Helpdesk on (07) 5456 6000.

If you have not Installed the Medical-Objects Download client, Please see the guide for [Installing Capricorn on Windows](#).

- 1 Overview
- 2 Configuring Capricorn Software
 - 2.1 Accessing the Capricorn Configuration Window
 - 2.2 Capricorn Configuration Settings

Configuring Capricorn Software

Accessing the Capricorn Configuration Window

Note:

In some cases, the Capricorn may be configured as a service. See [this guide](#) for instructions on how to launch the Capricorn if it is set up as a service.

1. To launch the HL7 Tray application, Go to **Start Menu, All Programs, Medical-Objects** and select the **Medical-Objects Capricorn**. Alternatively, You can go to **C:\MO\Capricorn** and run the **Capricorn.exe**.
2. The following icon will appear in the tray. Double click on it to bring up the log window.

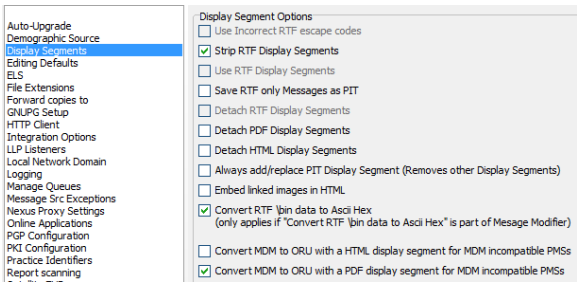

3. When the log window is displayed, Click on the **Configuration** icon highlighted below, or select **Utility** and select **Configuration**.

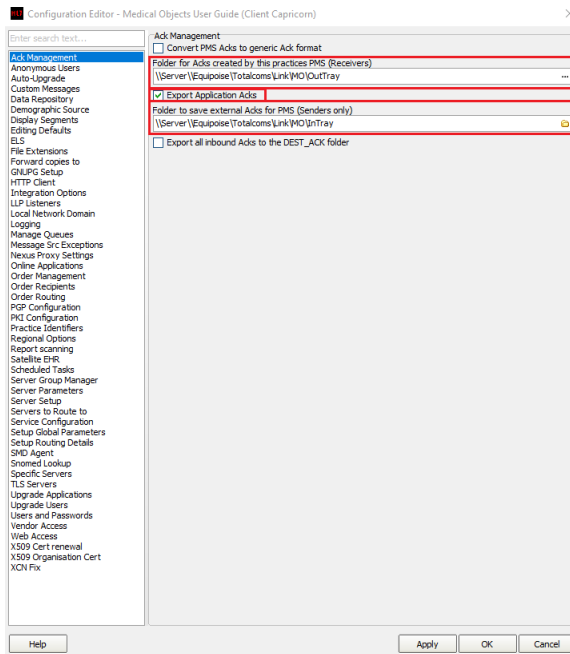

Capricorn Configuration Settings

1. Click on **Display Segments** from the left hand panel. Make sure the boxes are checked/ unchecked like displayed below.

2. Click on **Integration Options** in the left hand panel.

Note that **Folder for ACKs created by this practices PMS (Receivers)** should be as shown above.

```
\\Server\\Equipoise\\Totalcoms\\Link\\MO\\OutTray
```

You then check the box **Export Application Acks** tick box and set the file path to the **InTray** location. For Example

```
\\Server\\Equipoise\\Totalcoms\\Link\\MO\\InTray
```

3. Click on **Integration Options**.

3.1 Make sure the **Incoming Modifier** is set to **Totalcare 2**.

4. Click on **Server Parameters** in the left hand side panel.

5. Under the **Message Output Directory (main)** set the results import path.
For Example:

```
\\Server\Equipoise\Totalcoms\Link\MO\InTray
```

Info:

Once completed you will need to contact TotalCare to ensure they are picking up the results from the folder that you have specified.
